EDUCATION

University of Arizona, Tucson, AZ

Bachelor of Science in Computer Science (August 2016 - May 2020) GPA: 3.759

Minor in Business Administration

Minor in Information Science

SKILLS

Programming: TypeScript, JavaScript, C#, Python, Java

Technologies/Paradigms: Git, GitHub, SQL, SEO, TDD, Lazy Loading

DevOps: CI/CD, Containers, Docker, Docker Compose, Github Actions

EXPERIENCE

OutVoice *Remote*

Software Engineer (October 2021 – Present)

- Lead front-end developer for various (primarily Angular+TypeScript) web applications.
- Strong focus on things like initial bundle size, SEO and project maintainability while keeping the applications as simple and fast as possible

AstreaX *Tucson, AZ*

Software Developer (June 2020 – October 2021)

- Full stack C# .NET/Angular web application development
- Planned and carried out large scale refactoring efforts to increase performance, reliability, and security while maintaining backwards compatibility
- Created and updated onboarding and systems documentation to ensure a smooth developer startup experience

Bechtel *Reston, VA*

Security Automation Intern (June 2018 – August 2018)

- Developed internal tooling for security automation using Python 3 with a goal of increased team productivity and reduced data wrangling responsibility
- Monitored, reviewed, and cataloged cyber threats experienced at the company on a continual basis (phishing, domain name spoofing, malicious external traffic)

PROJECTS

habitapper.com — Feedback loop based habit tracking

- Built using TypeScript, React, NextJS, React Bootstrap, PostgreSQL and Vercel
- [Source](#)

samueldebartolo.com — Portfolio website for local Tucson architect

- Built using TypeScript, Angular, Ng Bootstrap, and Github Pages
- [Source](#)
